Mamut gets Rave reviews from independent software evaluators

UK Software guru David Carter evaluates Mamut

June 2006

'Mamut's concept of integrating CRM, stock and accounting together in one package is clearly right and puts it ahead of most packages on the market.

David concludes, "This is top quality software at a very modest price".

Mamut wins the Software Satisfaction Award 2006

in the Functionality category, fending off short-listed candidates like Sage, MYOB, TAS, NetSuite and QuickBooks

Mamut shortlisted for Small Business Accounting Software Award 2007
